

A35 SEED AIR MATIC VERMICULITE DISPENSER COMBO

From *KW Automation*

Quality Solution For All Growers

- ▶ **A Superb** economic seeding system for the small, medium or larger grower.
- ▶ **Durable** all aluminium base and legs.
- ▶ **Optional** water bar with water tray.
- ▶ **Fully** integratable.
- ▶ **Optional** compressor to operate machine.

KW Automations's popular A35 can now be ordered fully integrated with the new Econo Vermiculite Dispenser and watering system.

The Econo Vermiculite Dispenser has the option of a single water bar to water in the trays after being covered with vermiculite. This gives the grower a fully optional seeder including dibbler, seeder, vermiculite dispenser and watering bar.

This system can be attached to all existing KW bench top seeders such as A25, A50, H35 with an upgrade aluminium kit.
