

## OFFERING SYSTEMS FOR:

- Transplanting
- Soil mixing and distribution
- Plug tray fillers
- Integrated seeding lines
- Dispensers and fillers for flats and pots
- Plug grading and consolidation
- Planting lines for cuttings
- Watering booms
- Stationary / movable conveyors
- Custom automation
- Labeling equipment
- Rolling bench growing systems
- Rolling bench automation
- Vision grading and shipping systems
- 24 hr. technical assistance
- Installation & service

**SDS Model**

**Economy Model**

## Specifications:

### Speeds:

#### "Economy Model"

\* Round only: Up to 1320 trays per hour

#### "SDS Air-Stop Model"

\* Round: Up to 900 trays per hour

\* Square: Up to 700 trays per hour

\* Multiple heads for an individual tray can be installed for increased speed

**Power:** 230v, 3ph, 10A

**Air:** 10cfm @ 100 psi

**Dimensions:** Typical lengths range from 7' to 20' long

### Features:

- \* Designed & built custom for any dispensable container and carry tray combination
- \* Optional automatic carrier tray de-stacker or trays can be hand loaded (SDS only)
- \* Optional rolling casters
- \* Multiple pot sizes can be used on a single dispensing head with quick-change mechanical adjustments

The SDS & Economy Pot Dispensers automatically dispense pots and shuttle trays to reduce labor requirements on planting lines. For the SDS, both round and square pots can be accommodated. In order to change pots sizes at the "turn of a switch", several different size pot dispensers can be mounted in series on one belt. For longer production runs or seasonal plastic program changeovers, a single pot dispenser can be adjusted for different pot sizes and shuttle tray configurations.
