High Grip Conveyor

Soil Return Auger

Spiral Finishing Brush

Optional Powered Transfer

Unmatched uniformity describes the results produced by this unique plug tray filler. Specially designed linear agitators work in concert with the internal vibrator ensuring consistent filling from end to end and side to side. Versatility is the added bonus. With the capabilities of filling from 800 cell plug trays and containers up to 8.5" tall, this machine is useful all season long. Standard features include built-in line integration, extra capacity soil return, variable speed soil supply and variable speed belt control.
