7'-5" Long
7'-8" Wide

Optional:

- XXL -1300 Trays/Hour
- Additional Soil Hopper
- Pot Dispensers

The PTF Filler efficiently fills pots in "marketing trays". Low marketing trays allow graphics to be viewed by customers and saves money on plastics. The PTF Filler provides uniform filling while eliminating soil spillage between pots. Template masks can be changed in minutes to allow for varying tray configurations. Soil supply and conveyor speeds are variable. Integration for pot dispenser and transplanting line are provided.
