## Specifications:

### Capacity:

Up to 2,100 trays / hr

### Tray Sizes:

Up to 24" L x 16" W

### Air Requirements:

8 CFM @ 100 PSI

### Machine Dimensions:

100" L x 35" W x 56" H

### Electrical Requirements:

230 VAC 3 Phase, 3 A

### Features:

- \* Variable Belt Speed
- \* Pre-wired for integration to flat filler or other production equipment
- \* Adjustable tray de-nester
- \* Electronic photo eye control

The Multi-Stack Tray Dispenser automatically dispenses most common propagation and plug trays. It can be used as a stand-alone unit or can be fully integrated into production lines of all types. This "multi-stack" version automatically loads stacks via an upper conveyor belt and returns the dispensed tray via a lower belt. All units are adjustable to fit many trays. The dispensing magazine and separation mechanism are user-adjustable to accommodate different tray sizes.
