Specifications:

Applications per minute:

- * 4 inch pots — Tested up to 115 per minute, higher speeds possible.
- * Trays — Dependent on belt speed

Electrical Requirements:

120 VAC

Dimensions:

800mm W x 1300mm H x 800mm L— 40 kg.

Features:

- * Portable for easy positioning where needed.
- * Fast, easy set up and change over
- * Durable, heavy duty construction
- * Label size is up to 6cm long and between 2cm – 5cm tall

Options:

- * Left side version
- * Alarm for empty roll

This new labeling machine, from one of our most respected European suppliers, reliably “sticks” pre-printed labels to plant pots and trays. The machine is equipped with wheels so you can easily put it next to a conveyor belt and apply labels “in-line”, during the production process. It can be easily and quickly adjusted in height and angle for maximum flexibility and ease of change over. The labeler can be programmed using two dials which regulate the supply speed and the travel distance of the labels. The machine is equipped with adjustable rings for different diameters of label rolls, so different size label rolls can be used.
