Specifications:

Capacity:

From 40 to 400 trays / hr.

Tray Sizes:

Up to 29.5" L x 19.5" W x 5.75" H

Water Jet Pressure: 130 PSI

Maximum Water Temperature: 140°

Machine Dimensions (Including Disinfecting Unit):
189" L x 35" W x 60" H

Electrical Requirements:
230 VAC 3 Phase, 40 A

Features:

- * Variable Belt Speed
- * Integrated Disinfecting Unit
- * Water heater
- * Drying fan
- * 30 nozzles for washing, 10 nozzles for rinsing

The LAV10 tray washer is a cost effective machine for the high pressure cleaning and chemical disinfecting of most common young plant and shuttle trays. The LAV10's relatively light weight and small footprint allow it to be moved into place when and where you need it, and safely stored when it's not in use. A tray washer provides a solution to reducing plastic waste in these times of heightened environmental awareness and skyrocketing material prices.
