Specifications:

Standard Dimensions:

Length- 18'
Width- 7'
Working Height- 33"

Standard Number of Indexing Tables: 14

Line Speed:

Variable with timer controlled pause mode

Operating Modes:

Continuous movement
Pause at every index station
Pause at every other station
Pause at every third station

Electrical Requirements:

220 vac 3 phase, 6 amps

* Available in custom sizes and configurations

* Optional stainless steel work tables

* Rolling casters allow the Euro-Line to be used anywhere in the greenhouse

* Easy-to-use controls

Container gardens, color & variety mixes, and value-added packaging are industry trends that have many growers concerned as they watch their labor costs rise. The Euro-Assembly Line dramatically improves efficiencies and production rates for specialty mixes and packaging. The indexing table system brings the plants to the workers eliminating wasted motion and reducing fatigue. The variable line speed and timer controlled pause function allow the pace of production to be set and maintained.
