OFFERING SYSTEMS FOR:
- Transplanting
- Soil mixing and distribution
- Plug tray fillers
- Integrated seeding lines
- Dispensers and fillers for flats and pots
- Plug grading and consolidation
- Planting lines for cuttings
- Watering booms
- Stationary / movable conveyors
- Custom automation
- Labeling equipment
- Rolling bench growing systems
- Rolling bench automation
- Vision grading and shipping systems
- 24 hr. technical assistance
- Installation & service

Specifications:
- Soil Output: 36 – 120 yards per hour – per requirement
- Bulk Hoppers:
  - 20° Side walls
  - Rubber vulcanized head pulley
  - Heavy gauge galvanized steel construction
  - Low level sensors in each hopper
  - Modular design for rapid order fulfillment and customization
- Chemical Hoppers:
  - Low level sensors in each hopper
  - Stainless steel construction
  - Double gear reduction for precise chemical ratios
- Soil Mixing Conveyor:
  - Rubber vulcanized head pulley
  - Low-friction roller bed
  - Integrates with soil processing attachment
- Electrical Requirements: 208/230 VAC 3 phase (standard)
- Features:
  - Optional computer controlled recipes
  - Direct-drive inverter duty motors
  - Control system designed for integration with peat bale processors and multiple production lines
  - Color touch-screen operator interface panel
